

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

sels were passed without inspection and 6 bills of health were issued during the week.

Respectfully,

G. M. GUITÉRAS,

Passed Assistant Surgeon, U. S. M. H. S.,

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.

Reports from Nuevitas, Puerto Padre, Gibara, and Baracoa.

NUEVITAS, CUBA, *January 7, 1901.*

SIR: I have the honor to submit the following report for the week ended January 5, 1901: Seven vessels arrived at this port and 7 bills of health were issued. There have been no deaths and the sanitary condition is fair. The weather has been dry, with cool nights.

Puerto Padre.—Reports show the arrival of 3 vessels, 3 bills of health issued, 1 death, and sanitary conditions good.

Gibara.—Reports show the arrival of 5 vessels, 5 bills of health issued, 2 deaths, and sanitary conditions good.

Baracoa.—Reports show the arrival of 5 vessels, 6 bills of health issued, 4 deaths, and good sanitary condition. There is no report of quarantinable disease at any point in the district.

Respectfully,

OWEN W. STONE,

Acting Assistant Surgeon, U. S. M. H. S.

NUEVITAS, CUBA, *January 14, 1901.*

SIR: I have the honor to submit the following report for the week ended January 12, 1901: Eight vessels arrived at this port and 9 bills of health were issued. There was 1 death from tetanus. The weather continues dry and cool and the sanitary condition is fair.

Gibara.—Reports show the arrival of 5 vessels, 5 bills of health issued, 4 deaths, and sanitary condition good.

Baracoa.—Reports show the arrival of 4 vessels, 6 bills of health issued, 5 deaths, and sanitary condition good.

While there are no telegraphic reports from the other substations, coastwise bills of health show no quarantinable disease at any point.

Respectfully,

OWEN W. STONE,

Acting Assistant Surgeon, U. S. M. H. S.

The SURGEON-GENERAL,

U. S. Marine-Hospital Service.
